

All Homeowners will need to submit a Modification Form (ARC Request) when ever they are making changes to the outside of the home (ie: Fences, Windows & Doors, roofs, etc)

All ARC requests are now submitted thru the Online Owner Portal (a link to that is located on the website). Or you can go to this website: <https://home.sunstatemanagement.com>

If you have not already set up your online account, you will need to follow the steps to get that established (note: that may take several days, so plan accordingly). Once you have access to the online portal you will be able to submit your ARC request for review.
